VizSens-N03

Nitrate (N03-) Sensor

The VizSens-N03 is a highly accurate and reliable sensor designed for measuring Nitrate (N03-) levels in water. With a pH range of 4-10 and a precision of ± 0.1 , it ensures precise and consistent readings. The sensor features a digital RS-485 output with MODBUS protocol for seamless data transmission and integration with compatible controllers like AAD-IC-100-4 and AAD-IMC-100-12. Operating in harsh environments with IP68 protection, and offering optional measurement of Potassium and Sodium, the VizSens-N03 is an efficient and versatile solution for water quality monitoring and environmental applications.

Product Features

- Digital Sensor: Provides accurate and precise Nitrate measurements.
- RS-485 Output: Supports MODBUS protocol for seamless data transmission.
- Economical and Environmentally Friendly: Enables real-time online monitoring.
- Automatic pH and Temperature Compensation: Ensures accurate readings.
- High Precision and Stability: Offers reliable and consistent results.

VizSens-N03

Technical Specifications

Basic Specifications	
pH Range	4-10
pH Accuracy	±0.1
pH Resolution	0.01
Housing Material	POM (An Engineering Thermoplastic)
Nitrate Range	0~800mg/l NO ₃ ⁻
Nitrate Precision	3%
Protection Level	IP68
Nitrate Resolution	0.1ppm
Temperature Range	0~50°C
Power Supply	DC 6~12V, current<50mA
Output Signal	Digital RS-485 output, MODBUS protocol
Cable Length	5 meters (default), customizable
Operating Parameters	
Optional Measurements	Potassium, Sodium
Compatible Controllers	AAD-IC-100-4 and AAD-IMC-100-12

APPLICATIONS

**Aquaculture Farms**

Maintain NO₃- levels in fish tanks for optimal aquatic conditions.

**Drinking Water Quality**

Ensure safe drinking water by monitoring NO₃- levels in water sources.

**Environmental Research**

Assess NO₃- concentrations in water bodies to study pollution and ecosystem health.

**Agriculture and Irrigation**

Monitor NO₃- levels in irrigation water to optimize nutrient supply to crops.

**Scientific Laboratories**

Conduct NO₃- analysis for research and educational purposes.

**Industrial Processes**

Control NO₃- concentrations in wastewater to meet environmental regulations.

Note -

This data sheet serves as general information about the VizSens-N03. For specific technical details, installation guidelines, and troubleshooting assistance, please refer to the official user manual provided with the product.

For inquiries and detailed technical information, please contact info@advanceanalytik.com.
